Notice of Expiration of Patents Due to Failure to Pay Maintenance Fee for May 17, 1998 through June 28, 1998

35 U.S.C. 41 and 37 CFR 1.362(g) provide that if the required maintenance fee and any applicable surcharge are not paid in a patent requiring such payment, the patent will expire at the end of the 4th, 8th, or 12th anniversary of the grant of the patent depending upon the first maintenance fee which was not paid.

According to the records of the Office, the patents listed below have expired due to failure to pay the required maintenance fees and any applicable surcharges. The listing is unusually long because issues of the Official Gazette published since June 2, 1998 did not properly list patents which issued on or after March 29, 1994 that expired due to failure to pay the 4th-year anniversary maintenance fees. The following listing includes patents that issued on or after March 29, 1994 which have expired due to failure to pay the 4th year maintenance fees, which should have already been published in the Official Gazette.

In addition, patents that issued on or after March 29, 1994 and which expired due to failure to pay the required 4th-year anniversary maintenance fees and any required surcharge may not have received a Notice of Patent Expiration. Lastly, notices

reminding patentees of the requirement to pay amaintenance fees (Reminder Notices) have not been mailed for many patents which issued on or after March 29, 1994. The Office has resolved the computer problems that led to the failure to properly list patents which expired in the Official Gazette and the failure to mail the proper reminder and expiration notices. Notices of Patent Expiration, which should have already been mailed for patents which expired due to failure to pay the 4th year maintenance fee that was due with a surcharge by March 29, 1998, will be mailed in these patents. The Reminder Notices that should have been mailed, but because of the problems that have now been resolved were not mailed, may also be mailed if the patent has not expired.

Patentees and other customers seeking information as to whether the maintenance fee for a specific patent has been paid may obtain such information by calling Maintenance Fee Division at (703) 308-5068 or (703) 308-5069. Alternatively, requests for an uncertified statement regarding the status of maintenance fee payments for a specific patent may be faxed to Maintenance Fee Division at (703) 308-5077. Self service computer terminals are also available to the public and provide maintenance fee and assignment information for patents. These terminals can be found in the Public Search Room (located on the lobby level, between Crystal Plaza 2 and Crystal Plaza3), and the Patent Assignment Search Room (Crystal Plaza 3-2C03).

Notice Regarding Technical Center Box Issue Fee Mailings

The Office will begin mailing address labels with the PTOL-85, "Notice of Allowance and Issue Fee Due" for patent applications allowed in all Technology Centers. These address labels should be used to ensure proper routing of post-allowance correspondence. This directive supersedes the "Special Boxes for Patent Mail" instruction. Any Notice of Allowance and Issue Fee Due received without the accompanying address labels should continue to be addressed to Box Issue Fee.

Public User Identification Passes USPTO Public Search Facilities

The USPTO Public Search Services Division, responsible for the public search facilities in the Patent Search Room and the Trademark Search Library, is installing the new User Identification Pass system announced in the *Official Gazette* dated January 6, 1998. This system will replace the current passes used in the facilities with a new user number and a laminated identification badge. Later reissues of the badge are expected to add a photo of the user. Badges will be reissued every January upon validating and updating identification information. Information will be digitally stored so that validation and reissue will be speedy. There is a $15 fee for replacement of lost or forgotten badges; first issue and annual reissues are without fee. Badges must be visible at all times within the Patent Office building complex. The new user numbers will be used by the File Information Unit for public users requesting and checking out files.

Patrons using the Patent and Trademark Public Search Facilities as well as office areas must obtain a new badge before entering the Patent and Trademark Office complex. The process takes five to ten minutes for a first time issue. Effective immediately, equipment is available to issue the new badges for both patent and trademark public users at the Patent Search Room Reception Desk in Crystal Plaza 3, Lobby. The Patent Search Room is open Monday through Friday from 8 AM to 8 PM. The new User Passes will be required after August 15, 1998; old passes will not be valid after this date.

Reference Collections of U.S. Patents and Trademarks Available for Public Use in Patent and Trademark Depository Libraries

The following libraries, designated as Patent and Trademark Depository Libraries (PTDLs), receive patent and trademark information from the U.S. Patent and Trademark Office. Many PTDLs have on file patents issued since 1790, trademarks published since 1872, and select collections of foreign patents. All PTDLs receive both the patent and trademark sections of the *Official Gazette of the U.S. Patent and Trademark Office* and numerical sets of patents in a variety of formats. Patent and trademark search systems in the Cassis CD-ROM series are available at all PTDLs to increase access to that information. It is through the CD-ROM systems and other depository materials that preliminary patent and trademark searches may be conducted through the numerically arranged collections.

Each PTDL offers reference publications which outline and provide access to the patent and trademark classification systems, as well as other documents and publications which supplement the basic search tools. PTDLs provide technical staff assistance in using all materials.

All information is available for use by the public free of charge. However, there may be charges associated with the use of on-line systems, photocopying and related services.

Since there are variations in the scope of patent and trademark collections among the PTDLs, and their hours of service to the public vary, anyone contemplating use of these collections at a particular library is urged to contact that library in advance about its collections, services, and hours in order to avert possible inconvenience.

Partnership PTDLs provide enhanced and expanded services for which fees are charged. They offer on-line patent text and image searching, on-line trademark searching, and videoconferencing for examiner interviews and workshops. They accept disclosure documents on site, order file wrappers, assignment documents and certified copies for their customers, and host a variety of seminars aimed at specific audiences, including practitioners, paralegals, and independent inventors. Currently, partnerships are located at the Great Lakes Patent and Trademark Center (GLPTC) at the Detroit Public Library in Detroit, Michigan and the Sunnyvale Center for Innovation, Invention and Ideas (SCI³) in Sunnyvale, California.

*A communication from the examiner should have been received in most applications filed prior to this date.

Patents will Expire as Follows:
(1) The term of any utility or plant patent that is in force on or results from an application filed before June 8, 1995 is the greater of the 20 year term provided in 35 U.S.C. 154(a)(2) or 17 years from grant subject to any terminal disclaimers. 35 U.S.C. 154(c)(1).
(2) All utility and plant patents granted on applications having an actual United States filing date on or after June 8, 1995 are granted for a term which begins on the date on which the patent is granted and ends 20 years from the date on which the application was filed in the United States. If the application contains a specific reference to an earlier application under 35 U.S.C. 120, 121 or 365(c), the patent term ends twenty years from that date on which the earliest application was filed. 35 U.S.C. 154(a)(2).
(3) All design patents are granted for a term of 14 years from the date of the grant.
However, the term of any patent may have been curtailed by disclaimer under the provisions of 35 U.S.C. 153, have lapsed due to failure to pay maintenance fees, or have been extended under the provisions of 35 U.S.C. 154, 155, or 156. Thus, if more reliable information is needed with respect to a particular patent, then the specific patent file should be reviewed to determine the actual date of patent expiration.

Official Gazette Notice
Notification Regarding Reduced Patent Fee Schedule Effective October 1, 1998

All patent applicants and owners should be aware of the current uncertainty as to what patent fees will be in effect on October 1, 1998, when filing correspondence involving fees, such as new application filing fees, extension of time fees, issue fees, and maintenance fees. Trademark fees are not affected.

On October 1, 1998, the patent fee surcharge established in the Omnibus Budget Reconciliation Act of 1990 will expire. As a result, until Congress acts to set new patent fees, the patent statutory fees authorized under title 35, United States Code, sections 41(a) and (b), will fall automatically to pre-surcharge levels plus Consumer Price Index (CPI) adjustments on October 1, 1998.

Both houses of Congress have initiated action to set new patent fees. The Senate has passed an appropriations bill, S. 2260, and the House has passed an authorization bill, H.R. 3723, both of which would reduce patent fees from their current level, but not by as much as the fees would decline in the absence of Congressional action. Also, if no PTO appropriations legislation passes before October 1, Congress may enact a continuing resolution which could affect the patent fee schedule. Any of these legislative actions may occur at any time before, on or after October 1, 1998.

Anticipating the possibility that Congress might not act by October 1, 1998, the PTO published a **final rule** in the *Federal Register* establishing a fee schedule to take effect on October 1, 1998. This fee schedule appeared in the *Federal Register* on July 24, 1998, in Volume 63, Number 142, pages 39731 to 39737, and in the *Official Gazette of the Patent and Trademark Office* on August 18, 1998, in Volume 1213, pages 153 to 160.

See Appendix A at the end of *Federal Register* and *Official Gazette* final rule notices for an easy to follow schedule of the new fees.

The *Federal Register* notice, including helpful Appendix A, may be easily found on the PTO's Web site as explained below. **The final rule** would reduce patent fees to reflect the expiration of the surcharge plus fluctuations in the CPI, and **assumes no Congressional action prior to October 1, 1998**. The fee levels that would be established should either S. 2260 or H.R. 3723 be enacted may also be found in the third (H.R. 3723) column of the previously mentioned Appendix A.

Under normal circumstances, patent fees are set forth in 37 C.F.R. §§ 1.16 through 1.21 and 1.492. As discussed above, however, it is possible that legislation will be enacted that supersedes the patent fees specified in 37 C.F.R. §§ 1.16 through 1.21 and 1.492. If this happens, the fees in effect are those fees set forth in the enacted legislation (and not the fees specified in 37 C.F.R. §§ 1.16 through 1.21 and 1.492). Therefore, it is also possible that there will be a gap in time during which 37 C.F.R. §§ 1.16 through 1.21 and 1.492 do not accurately set forth the patent fees in effect. When legislation is enacted to reset patent fees, the PTO will publish in the *Federal Register* and in the *Official Gazette* an official notice setting forth the patent fee schedule to be followed, and will post the patent fee schedule on the PTO's Web site.

The final rule stated, in the section entitled "General Procedures" that "[a]ny fee amount that is paid on or after the effective date of the final fee adjustment will be subject to the new fees then in effect." While this statement is correct for most patent fees, it is **not** correct with respect to the filing fee required for a patent application filed under

35 U.S.C. § 111 or the national fee for an application entering the national stage under 35 U.S.C. § 371. A correct statement of these fees is set forth below in this notice.

If you want to know what fee to pay when filing correspondence, you should refer to the PTO's Web site (www.uspto.gov), or contact the PTO General Information Services Division at (703) 308-4357 or (800) PTO-9199 for the most current fee amounts and information.

As passage of the pending fee legislation is uncertain, the PTO will proceed under the assumption that the fee changes set forth in the final rule will become effective on October 1, 1998. In view of the scheduled reduction in patent application fees effective on October 1, 1998, this notice is intended to clarify: (1) the filing fee required to be paid for a patent application filed under 35 U.S.C. § 111 prior to October 1, 1998 where the fee is not actually received until on or after October 1, 1998; (2) the basic national fee and the fees for excess and multiple dependent claims required for international applications entering the national stage under 35 U.S.C. § 371; and (3) the applicability of Certificate of Mailing and "Express Mail" practice to the fee in effect on the date of payment.

Patent Application Filing Fee For Application Filed Under 35 U.S.C. § 111 and 37 C.F.R. § 1.53

If the filing fee is received when the application is filed, the filing fee required in an application filed under 35 U.S.C. § 111 is the filing fee in effect on the filing date assigned the application. If the filing fee is received on a date later than the filing date assigned the application, the filing fee required in an application filed under 35 U.S.C. § 111 is the higher of: (1) the filing fee in effect on the filing date assigned the application; or (2) the filing fee in effect on the date the filing fee is received. The filing fee includes the basic fee, excess claims fees (if any), and the multiple dependent claim fee (if any), for claims present on filing (unless the excess or multiple dependent claims are canceled before the filing fee is paid). Of course, if the basic filing fee is received on a date later than the filing date assigned the application filed under 35 U.S.C. § 111, a surcharge as set forth in 37 C.F.R. § 1.16(e) is also required.

The current rules (37 C.F.R. §§ 1.53(f) and (g)) are designed to discourage the filing of an application without the basic filing fee by imposing a financial penalty in the form of a surcharge when the basic filing fee is received later than the filing date assigned the application. Therefore, delaying the payment of the filing fee in an application under 35 U.S.C. § 111 will not reduce the filing fee required to be paid in the application. For example, the filing fee required to be paid in an application under 35 U.S.C. § 111 filed before October 1, 1998 cannot be reduced by delaying the payment of the filing fee until on or after October 1, 1998.

It is not recommended that the filing of any application be delayed until October 1, 1998 for the purpose of paying a reduced filing fee because: (1) a delay in filing an application could adversely affect the patentability of the application (see, e.g., 35 U.S.C. § 102(b)); and (2) it is uncertain as to what fees will be in effect on and after October 1, 1998.

Fees For International Application Entering The National Stage Under 35 U.S.C. § 371 and 37 C.F.R. §§ 1.494 or 1.495

The basic national fee for an international application entering the national stage is due not later than the expiration of 20 months from the priority date in the international application (or 30 months from the priority date if the United States was elected prior to the expiration of 19 months from the priority date), and the amount of the basic national

fee that is required to be paid is the basic national fee in effect on the date the full fee is received.

If the reduced basic national fee scheduled to be effective on October 1, 1998 does take effect, even for a limited period of time, or if a different reduced fee schedule is set forth in enacted legislation, applicants may take advantage of such a reduction in fees. This is because the amount required to be paid for the basic national fee is determined by the fees in effect on the date the basic national fee is received. Applicants are cautioned, however, that the full basic national fee must be paid within the permitted (20 or 30 months) period for payment of the basic national fee, delaying payment of the basic national fee may cause a later date under 35 U.S.C. § 102(e) to be accorded to any patent issuing on the application, and, as previously noted, it is uncertain what fees will be in effect on and after October 1, 1998.

The excess claim fees or the multiple dependent claim fee required to be paid is the higher of: (1) the excess claims fees and the multiple dependent claim fee in effect on the date the basic national fee is received; or (2) the excess claims fees and the multiple dependent claim fee in effect on the date (any of) these fees are received. In this respect, the practice for determining the fees due for excess claims and any multiple dependent claim when entering into the national stage is analogous to the practice for applications filed under 35 U.S.C. § 111.

Fees for claims which are added after entry into the national stage are determined by the fees in effect (for any excess claims and any multiple dependent claim) on the date the fee(s) are received.

All Other Patent Fees

The fee required to be paid for all other patent fees is the fee in effect on the date the fee is received (see "Certificate of Mailing or Transmission under 37 C.F.R. § 1.8(a)(1)" and "Correspondence filed by 'Express Mail,'" discussed below).

Certificate of Mailing or Transmission under 37 C.F.R. § 1.8(a)(1)

For those items for which a Certificate of Mailing or Transmission under 37 C.F.R. § 1.8(a)(1) is proper, the fee required is the lower of: (1) the fee in effect on the date of receipt of the fee; or (2) the fee in effect on the date of mailing indicated on a proper Certificate of Mailing or Transmission under 37 C.F.R. § 1.8(a)(1). Items for which a Certificate of Mailing or Transmission under 37 C.F.R. § 1.8(a)(1) is not proper include, for example, Continued Prosecution Applications under 37 C.F.R. § 1.53(d) and other national and international applications for patents, see 37 C.F.R. § 1.8(a)(2).

Correspondence Filed by "Express Mail"

Under 37 C.F.R. § 1.10(a), any correspondence delivered by the "Express Mail Post Office to Addressee" service of the United States Postal Service (USPS) is considered filed or received in the Office on the date of deposit with the USPS. The date of deposit with the USPS is shown by the "date-in" on the "Express Mail" mailing label or other official USPS notation.

SECTION 2.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).
